

Helping Your Child With : **MATHS**

Look for shapes and patterns in real life

Let your child help you measure out ingredients in a recipe

Ask them to explain the maths they are working on in school

Play card or board games that involve counting for patterns

Count change at the supermarket

Estimate the total cost when shopping

Compare :
- the tallest ?
- the longest ?
- the smallest ?
- the fastest ?
- the hottest ?
- the last one ?

Track or graph scores or statistics for a favourite football team

Have a calculator and a measuring tape in your home

Ask them to tell you how they got their homework answers

Count your steps as you walk - then in 2's, then in 3's
