

The **NEW RAISE Online** For 2017 : getting the most

A One Day Course From Coeus Education Ltd

The Changes To the Data Set

Using Filters & In-Built Tools

Comparing Performance 2016 and 2017

Helping Governors Understand the Data

The one day course will consider :

- how to find the 'headline data'
- identifying strengths and weaknesses
- becoming familiar with the new tools
- the links to the inspection dashboard
- OFSTED expectations

The course will take participants through the new data tool, allowing them to identify (and become familiar with) the tools available to them. Participants should bring with them a laptop with which to access their own data. At the end of the day, schools will have identified the key messages for their school from the data set available.
